ABOUT ME

I am a passionate front-end developer with two years of experience in web development, specializing in creating user-friendly and visually appealing systems. I have a strong foundation in communication skills, allowing me to collaborate effectively with team members, designers, and stakeholders to bring innovative ideas to life and enhance the overall user experience. Additionally, I am a skilled Linux system analyst, adept at maintaining and optimizing web applications to ensure they run smoothly. I thrive on problem-solving and continuously seek to improve system performance and functionality.

EDUCATION

2019 - 2023 **TECHNOLOGICAL UNIVERSITY OF THE PHILIPPINES**

- iskolar ng bayan
- President Lister

WORK EXPERIENCE

2022 **PCI TECH CENTER | INTERNSHIP | UI/UX**

- Worked on front-end styling and HTML/CSS adjustments to support UX/UI team's designs

2022-2023 **SEIVERSITY | FRONT-END DEVELOPER**

- Developed an E-University System tailored for marine students, providing a digital platform for accessing educational resources, assignments, and communications.
- Utilized **Vue.js (Javascript)** and **Tailwind (CSS)** to create an intuitive and responsive front-end interface, ensuring smooth user interactions, visually appealing design, and ease of use.
- Integrated Front-End interfaces with backend systems via **APIs**, ensuring seamless data flow and functionality
- Integrated the front end with a **Laravel (PHP)** back end to manage and process data effectively, enabling secure access to information

January-November 2024 **WBRIDGES CORP. @SOLAIRE RESORT MANILA| LINUX SYSTEM ADMIN**

- Managed and maintained foreign websites, ensuring optimal performance and uptime through regular monitoring and troubleshooting on **Linux servers**
- Configured and optimized **Nginx** to handle web traffic efficiently, enhancing website loading speeds and reliability.
- Configured domains using Alibaba Cloud, Google Cloud Platform (GCP), DNS servers, and CDN to ensure seamless accessibility, faster content delivery, and proper routing for multiple websites.
